CHARGING STATION

Open the media doors and plug in to charge your devices.

COLLABORATION STATION

Open the media doors and connect your computer to one of the available “pucks”. These pucks will have different connectors to choose from, so be sure to pick the one that fits your machine. Once your computer is connected, press the icon located on the puck. This will share your computer screen to the big screen.

If it still does not work, check your laptop display settings and set to either “duplicate display” or “projector only”, because some laptops will not automatically change this setting.

Charge your devices!

Collaborate on presentations or work from the big screen.

These stations are for charging and research only. See the Front Desk for the Remote.

Thank you!
